

## Braxmaviken Gård

The Braxmaviken Gård estate is located where the 5 000 ha Lake Viken is at its loveliest. It is nature park for anglers seeking fishing experiences in natural waters; the family with varied interests; the stressed European needing quiet; and a haven for the flora and fauna by the lake. It draws hunters, birdwatchers and golfers! There are cultural experiences of all sorts nearby, such as Göta Canal, Karlsborg Fortress, Tiveden National Park and Forsvik's Foundry.

### Season

The facility opens on May 15 and closes on October 20. Other times and events can be arranged at other times as well. Pike fishing is best during the spring and autumn; perch and pikeperch in the summer; and crayfish in August. Pikeperch may not be fished while spawning.

### Species & Records

Pike, perch and pikeperch are our most commonly caught fish species. Viken is well known for its large sized pike and perch. For those who are interested in angling, there are rich quantities of bream and tench. Other species in the lake are roach, asp, zope, chub, ide, rudd, bleak, ruffe, burbot and eel. Within our grounds we also have a smaller lake with trout where fly fishing can be done.

### Fishing Service

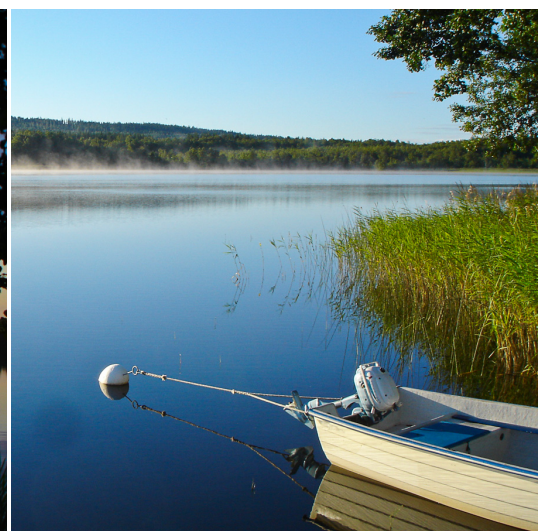

Fishing packages includes: boat & motor, oars, start-up fuel, depth chart, anchor, life jackets. 2 Linder 440 aluminium boats with 4-5 hp motors. 1 aluminium Canadian boat for 1-4 persons. Guide service available, petrol bought on site, fish finders & fishing licence available on site. Fishing shop nearby.

### Location & Transfer

The Braxmaviken Gård lies between lakes Vänern and Vättern along the Göta Canal. Nearby airports include Jönköping (1 hr), Göteborg (2 hrs), Nyköping (2 hrs) and Stockholm (3 hrs). The nearest X-2000 high-speed rail connection is in Skövde (50 km).

### Equipment & tactics

Spin fishing and trolling in lake Viken. Summertime trolling and float trolling for lake pikeperch is an especially efficient way to experience good fishing.

### Regulations

The rules of the fishing preservation area are obeyed. C&R applies for what is not eaten when on site. No fish may be frozen and brought back home.

### Other activities

Rent or borrow a bicycle, go to local stables nearby who offer horseback riding trips, rent a canoe from Braxmaviken Gård, encounter beaver, deer, moose/elk and many species of birds on a Nature and Wildlife walk, cruise along the Göta Canal on one of the historic ships, visit the famous industrial museum at Forsvik, and much more!

### Languages

At Braxmaviken we speak Swedish, English, German and French.
