

Brovillan

A warm welcome to Brovillan on the famous pikeperch lake Stora Nätaren. We provide you with top-class living only five metres from the lake in which we have access to private water. This lake is known for its excellent fishing with large pikeperch and lots of pike. You can also fish in private tarns with large perch and strong populations of roach. You'll live well at Brovillan with private toilet and shower. It's also possible to hire the whole house for larger groups.

Season

From May through July the whole lake is open to anglers. At other times of the year we have 70 ha of private water just for our guests. In addition we have two private tarns on our property. Brovillan is open to visitors year-round!

Equipment & tactics

Lake Stora Nätaren is excellent for both spin and rod fishing for pikeperch, either from one of our boats or from the fishing raft. You can also fish for such species as bream, tench, rudd and roach, both in Lake Nätaren and in our private tarns. Rod fishing is best in the summer. We can even recommend jig fishing at one of the lake's many shallows using our updated depth chart for effective fishing.
