

Kalvshults Gård

Join us on a fishing tour among the islands and the many species of Lake Örsjö. You will stay at Kalvshult Gård estate choosing one of our modern, well-equipped leisure houses near the water. The silence is total and you can focus on a completely undisturbed fishing. Our electrically powered boats will take where you wish to go without a sound.

Season

We are open all year for our fishing guests. Pike is best in the spring and autumn, while perch and pikeperch like the warmer water between May and September. Wintertime ice-fishing is something special.

Species & Records

You can always catch pikeperch, pike, perch, trout, tench and eel in Lake Örsjö.

Fishing Service

A boat is included in the cabin rental at the Kalvshult Gård estate! All our boats are plastic ranging from 3.5 to 4.5 metres. You can rent both an electric motor and simpler fishing equipment.

Equipment & tactics

You can fish from both land and boat in Lake Örsjö. Pikeperch and pike are best caught early in the day or late in the evening, both by trolling. You can also use spin or coarse fishing from an anchored boat or from the shore. Bottom fishing is excellent if you're looking for tench or eel, while brown trout is best landed with spin or fly fishing. In the winter you can catch perch and pike using a number of ice-fishing techniques.

Regulations

Minimum sizes: Pike – 50 cm. Pikeperch – 45 cm. Brown trout – 40 cm. Eel – 60 cm. Fishing licence is required – max 2 rods per licence. Your catch is limited to the amount of fish you can eat during your stay at Kalvshult.

Other activities

Bicycles for hire, visiting Ikea in Älmhult, swimming in the lake, bird watching, picking mushrooms, elk (moose) park, Linnaeus Country and the Brio Lekoseum (Playoseum).
