

## Fishing Lake Runn

The cottages are idyllically located on an island in Lake Runn. Runn is one of Sweden's best lakes for catching pike, perch, and zander. The lake covers an area of 65.5 sq km with a maximum depth of 27 m and contains 80 islands. The cottages are located right by the water and you are practically at the dock when you step out the door. We provide well-equipped boats with various options for your fishing experience.

### Season

Our cottages are generally open from the end of April until mid-October. Late spring and early fall are the best seasons for real fishing enthusiasts who want to maximize their chances of catching pike. Summer is perfect for enjoyable family fishing for perch, pike, and zander.

### Species & Records

The main species to fish for in Runn are pike, zander, and perch. In recent years, Runn has become a very good lake for zander fishing, but it is most famous for its large pike. It is not uncommon for pike over 120 cm to be caught in the lake.

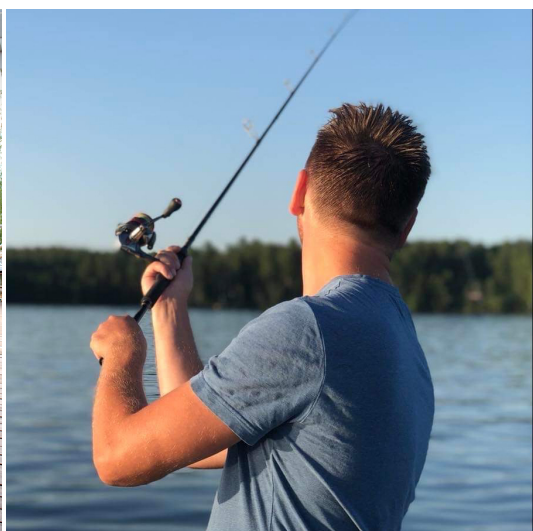

### Fishing Service

A simpler motorboat (Ryds 460) is included in the basic package. More advanced motorboats can be arranged: 1. Tracker V16 with a 40 hp motor, electric motor with GPS, sonar, casting deck, etc. 2. Large aluminum boat with a 60 hp motor and downriggers.

### Location & Transfer

The cottages are located on an island in Lake Runn, which is 10 km from Falun. You can reach Falun by train from Arlanda Airport, for example. The train takes 2 hours and 20 minutes. We can arrange transport from Falun to the cottage.

### Equipment & tactics

Fishing is best done from one of our boats. Here you have access to sonar to see the depths and where the fish are, but it is also possible to fish from one of the many uninhabited islands if you want to stretch your legs for a while.

### Regulations

Pike over 80 cm should be released back into the water as gently as possible. A maximum of 2 zander between 50-70 cm may be caught per fishing session/day, zander under 50 cm and over 70 cm should be released back into the water as gently as possible.

### Other activities

Our cottages are located 10 km from Falun with its almost 60,000 inhabitants. A city that is largely classified as a World Heritage Site with many cultural treasures and several good restaurants. If you want to do other activities besides fishing on Runn one day, it is ideal for paddling and visiting some of the lake's many uninhabited islands. Canoes are available for rent.

### Languages

You can communicate with us in English and Swedish.

### Additional info

### Accommodation

The cottages have everything for your convenience: separate bedrooms for a good night's sleep, TV/video in the living room, and a fireplace for cozy evenings. You can cook in the cottage and store food in the fridge/freezer. Each cottage has a shower and toilet. Enjoy nature from the porch or patio with outdoor furniture and cook on the grill while enjoying the view. Electricity and water costs are included in the price and pets are welcome. Smoking is prohibited indoors.

## Catch & Relax

Catch & Relax is one of Stockholm's foremost activity companies. Its focus is to provide custom designed, entertaining and exciting activities in the archipelago for both large and small groups with special wishes. Our aim is to enable our guests to experience the Stockholm islands close-up and somewhat above the normal. Fishing is our core activity and today we are one of Sweden's largest sport fishing companies. In addition we can offer boat transport and guided boat tours.

### Season

Once the winter ice thaws, we fish for sea trout and pike. When the temperature rises, we exchange sea trout for perch until well into the autumn. As to pike, it's always on the table!

### Species & Records

### Fishing Service

We use two Sea Pro 24 bay boats for smaller groups and a Fishing 320 boat for larger ones. The Sea Pro boats are fitted with a Mercury 225 hp electric motor and a Talon anchor. Equipment on the guided trips include rods and bait, as well as rain coats, waterproof coveralls and life jackets.

### Location & Transfer

We are based in Vaxholm north of Stockholm. It's about 40 minutes to Stockholm centre and 50 minutes to the Arlanda Airport. You can reach Vaxholm by car, bus or boat and we will fetch you from suitable places chosen by you.

### Equipment & tactics

Spin and fly fishing are at the top of our list. Our boats are well adapted for both methods especially since they are fitted with both an electric motor in the bow and a Talon anchor.

### Regulations

We use catch & release on all our guided tours.

### Other activities

Though we specialize on sport fishing in the Stockholm Archipelago, our contact network enables us to arrange combination activities as desired. The choices range from sailing trips, RIB tours (rigid-inflatable boat), sauna evenings and high adventure courses to name a few.

### Languages

Swedish, English, German and Swiss German

### Additional info

### Accommodation

We are working closely with suitable accommodations in Stockholm City as well as in the archipelago outside Stockholm. Among our partners: - Vaxholms Bed & Breakfast - Grinda Vårdshus - Fredriksborg Hotel och Restaurang - Furusunds Vårdshus - Nässlingen (Hotell) - Lindö Vårdshus - Kung Carl Hotell - Vaxholm Sea View Cottage
