Skönviks Gård

Welcome to a small fishing paradise located on the Indalsälven River close to Sweden's midpoint. This is home to the truly large pike – an 18 kg whopper was hooked some years ago! You will stay in a newly renovated flat in a wing of a farm built in the 1800s, with all modern comfort. You can hire a boat on the site and we can move the boat to other waters within the fishing area, if should you wish to try your luck elsewhere.
