

Ice fishing

This time of year we fish pike, perch or rainbow trout. The chance to catch a really big fish is often greater on a winters day on ice than during other seasons. Fishing on ice can also be combined with other activities. A fire for grilling hot dogs or hamburgers may also be arranged.

Included in package:

All fishing equipment and fishing license, and also a picnic basket containing cold and hot beverages, buns and snacks, is always included.

Price fr. request

Lunch can be booked as an addition.

Catch & Relax

Catch & Relax is one of Stockholm's foremost activity companies. Its focus is to provide custom designed, entertaining and exciting activities in the archipelago for both large and small groups with special wishes. Our aim is to enable our guests to experience the Stockholm islands close-up and somewhat above the normal. Fishing is our core activity and today we are one of Sweden's largest sport fishing companies. In addition we can offer boat transport and guided boat tours.

Ice fishing

Additional information

The winter season with its 'blue and pink' colours and tranquility is magic. Take the opportunity to try one of winter's perhaps most amusing outdoor activities - ice fishing! We hope this may be a perfect pause in the conference, a fun client- or team event, or just a wonderful day outdoors with family and friends.

We use ice sledges that are well equipped with suitable devices for what you aim to catch during the day. The activity is performed only on absolutely safe ice and all participants are geared with ice-prods. Bring comfortable and warm clothes. Underwear and socks of wool, water-resistant jacket and trousers. Most important is warm shoes with thick sole. A backpack with collapsible stool is preferred, and extra pair of socks and mittens, if you get wet. We bring floating overalls and/or life vests, and some camping seat pads.

The performance of ice fishing activities may vary depending on weather, status of ice and your requests.
