

River Fiskonbäcken, 1 night

The upper reaches of the Fiskonbäcken Creek are in fact a small mountain river between 5 and 15 m wide. The creek offers many stretches for extraordinary sight fishing. Only 25 fishing days are sold in this area. The river houses a solid stock of relatively large mountain trout with an average length around 40 cm and rather common individuals reaching 55 cm.

Included in package:

Included in package // Fishing licence, tent lodgings, guide and food for your whole stay at the river. We recommend a maximum of three days at the river. Good to know if you choose to hike in: Since the hike is some 8 km in mountain terrain to our camping site it's important that the participants can carry their share of the equipment for needed for sleeping and eating.

Kultsjögården

Saxnäs offers fishing for everyone at a comfortable distance from the Fishing Centre at Kultsjögården. Those interested in running water can choose between many river and creeks and there are lots of small lakes and tarns scattered in the Stekenjokk mountain area or in the Njakafjäll woods. We offer packages in limited fishing waters such as river Ransarån and Upper Fiskonbäcken Creek, both with tent living. Trout and char dominate the Marså and Kultsjöå rivers and in the latter there is grayling. While here you live comfortably in our self-catering cabins or in flats or rooms at our hostel.
