### Kultsjögården

Saxnäs offers fishing for everyone at a comfortable distance from the Fishing Centre at Kultsjögården. Those interested in running water can choose between many river and creeks and there are lots of small lakes and tarns scattered in the Stekenjokk mountain area or in the Njakafjäll woods. We offer packages in limited fishing waters such as river Ransarån and Upper Fiskonbäcken Creek, both with tent living. Trout and char dominate the Marså and Kultsjöå rivers and in the latter there is grayling. While here you live comfortably in our self-catering cabins or in flats or rooms at our hostel.
